## Official User Guide for Joomla 1.x is available

Posted by forum\_support - 2008/06/12 19:35

---

Finally the Joomla 1.x official User and Administrator Manuals are available from the Joomla site:  
<http://help.joomla.org/>.

It has a detail description on Role-based document management and workflow. The beauty is when you add custom component or modules, the add-on's inherit the Role-based framework. Designated users can start working on the new add-on immediately.
